Objective

Recently graduated from Richfield Institution with a Diploma in Information Technology. Self-motivated individual who is actively seeking opportunities to develop the best web applications. Excellent at problem-solving, organizing, and development.

Core Skills

Richfield Institution (2021-2023)

- PHP
- JavaScript
- HTML
- CSS
- Java
- Git and GitHub
- Microsoft Office suite
- Communication
- Problem-solving

Experience

Tobb Technologies (06 December 2023- 15 March 2024)

Work-integrated learning.

- I was developing a web-based project called Medi-Point. It was created to aid people in making medical appointments and reduce the waiting period for patients who need treatment. [Find out more here](#)
- Skills gained project management, communication, Team leadership, and collaboration.
- Working with Tobb Technologies also helped me advance my programming skills in languages such as JavaScript.

Web developer

Personal Portfolio

- This is my portfolio where I showcase some of my skills using HTML, CSS, and JavaScript.
- The website highlights my personality, and it has links to my other projects. [Click here to view.](#)

Hair salon project

Web application for a hair salon

- In my final year my team at school created a web application that helps people to book their hair appointments online using HTML, CSS, JavaScript, and PHP.
- Skills gained leadership, communication, and collaboration.
